

Erythermalgia

Erythermalgia is a rare and often invisible disease that causes:

- 🔥 Intense pain and burning sensations
- 🔥 Excessive heat and visible redness
- 🔥 Variable areas affected: feet, hands, and sometimes the face (ears, cheeks, chin, nose)

You are not alone

Don't suffer in silence.

The association *Les Brûlures Invisibles* is here to support you.

💬 **Share and Connect**

Break the isolation, talk about your experience, and move forward together in facing erythermalgia.

📖 **Get Informed**

Access reliable information about the disease and its management.

🌱 **Find Solutions**

Discover strategies and advice to improve quality of life on a daily basis.
